November 9, 1999

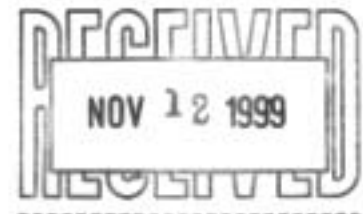

Dear Rick,

I wanted to personally express my gratitude and appreciation for the honor bestowed upon me by you and other SMACNA members at this years annual dinner/dance. It was a wonderful evening that allowed me the opportunity to share my reflections of the industry that has significantly contributed to my success.

This evening was made even more special with your participation. Having individuals present who have and continue to be part of this success story made it that much more satisfying. Your association in the past, present and for the future bodes well for our industry and hopefully leads to others having a similar experience to mine.

Thank you again for an evening and an honor that I will never forget.

Sincerely,
